TUESDAY, MAY 24. 1737.

91: 596.

Yesterday arriv'd a Mail from Holland.

THE Emperor has established Annuities for Lives in Tirol, upon a Fund of 170000 Florins Capital, for which the Salt Works at Hall and Inthal are Security. 'Tis divided into 4 Classes, each of 1000 Shares, at 500 Florins each Share. The first Class will consist of Proprietors under 25 Years, who are to have 7 per Cent. Interest; the second, of those from 25 to 40, who are to have 8 per Cent. the third, of Persons from 41 to 55, who are to have 9 per Cent. and the fourth, of Persons of 55 and upwards, who are to have 10 per Cent. The Dividend of 1000 Shares is 35000 Florins for the first Class; 40000 for the second; 45000 for the third; and 50000 for the fourth and last. As the Proprietors die, half the Interest of their Shares is to be divided among the Survivors. Foreigners may be concerned also in these Annuities; and the Emperor engages, That their Shares shall never be confiscated; That the Dividends shall not be seiz'd, by Reason of a War, or on any other Pretence, and shall not be subject to any Reduction or Tax.

M du Thell the French Minister, having finish'd his Affairs at the Court of Vienna, and conducted the Treaty of Peace so far as nothing remains but the signing it, has had his Audiences of Leave, and considerable Presents from their Imperial Majesties, and is preparing to set out for Paris: He is to be succeeded by the Marquis de Mirepoix, with the Character of Ambassador.

According to a List communicated to the Court of Vienna, by the Russian Minister, of the Two Armies which the Czarina will employ against the Turks and Tartars, Count Munich's Army will consist of 90910 Men, and General Laszy's of 49723 Men; in all 140,633 of Regular Forces, besides the Cossicks, Tartars, and Calmucks, who are Tributaries to Russia.

'Tis affirmed from Vienna, That the Spanish Ambassador continues his Negotiations to engage the Emperor to sell the Duchies of Parma and Placentia to the Crown of Spain.

The Letters from Italy say, That the eldest Son of the Chevalier de St. George arrived from Bologna at Parma, and after having paid a Visit to Dorothy Duchess Dowager, who received him with great Marks of Friendship and Esteem, and seen the Remarkables in that City, proceeded to Genoa, where he was very well received by the Nobility, and had a Visit from the Spanish Envoy. And at Ancona he was receiv'd with great Marks of Distinction by the Bishop and the Magistrates of that City, who welcomed him with a Triple Salvo of their Artillery. There were then in the Harbour 3 English Ships, 1 Dutch, and 2 French; the Captains of which latter went and complimented him, and fir'd their Guns when he came to take a View of the Harbour. Since his Departure from Rome, we are told there have been several Conferences held at his Father's House, about his Journey; and that it has been determin'd he shall not go to France, but return hither after he has visited the principal Towns of Lombardy; so that 'tis a Question whether he will go to Turin. The Pope has given Leave to Cardinal Coscia to be absent for six Months, to go to Naples, on Condition that when that Time is expir'd, he return to the Castle of St. Angelo.

They write from Genoa, That the Corsican Rebels have defeated the Genoese Forces, in an Action at St. Pellegrino, and, by Way of Reprisal, cut off the Heads of those they took Prisoners, and fix'd them upon Poles.

The States of Holland and West Friseland have passed an Order, which is to be a perpetual Law, That every Military Officer upon their Establishment, who is of the Protestant Religion, and abandons it for the Romish, or who shall marry a Woman of that Religion, shall be turned out of his Post.

## SCOTLAND.

Edinburgh, May 17. Thursday last the Venerable Assembly, after chusing the Moderator, heard read

the King's Commission to the most Honourable the Marquis of Lothian; then his Grace presented his Majesty's Letter to the Assembly, which was read with the greatest Respect and Reverence, as follows;

## GEORGE R.

Right Trusty and Well-beloved, we greet you well.

AFTER the repeated Proofs which you have given, of your Zeal for the Advancement of true Religion and Piety, the Prosperity of the Church of which you are Members, and the Good of your Country, We cannot but be persuaded, you will continue to pursue those Measures, which may most effectually contribute to the attaining of those desirable Ends in this your present Meeting; which We therefore most willingly countenance with our Royal Approbation and Authority: And as We are well satisfied of your Loyalty and Affection for Us and our Royal Family, so you may be assured of our constant Resolution to support and maintain the Church of Scotland established by Law, in the full Enjoyment of all its just Rights and Privileges.

The Dependence which We have, on your coming together, with these good Dispositions and Intentions, leaves us no Room to doubt of your employing your best Endeavours to bring about the great and good Purposes for which you are now assembled, by conducting all in your Power to the Peace and Welfare of the Church, the Increase of Piety and Virtue, the preventing of the Growth of Popery, and the suppressing of Profaneness and Immorality; wherein you may rely upon Our Countenance and Encouragement: And as you must be sensible the Success of your Councils and Deliberations, will, under God, chiefly depend on the Wisdom, Moderation and Charity with which they are conducted, We earnestly recommend to you to avoid all Disputes and Contentions among yourselves, and to proceed upon the Business proper for your Consideration, with that Unanimity and Brotherly Love, as may justly be expected from so Venerable a Body, and which cannot fail to recommend you to our further Favours.

The Experience you have had of the Capacity and Abilities of Our Right Trusty and entirely beloved Cousin, William Marquis of Lothian, will, We doubt not, render the Choice very agreeable to you, which We have made of him, to represent Our Royal Person in your Assembly; being induced thereto by the Knowledge we have of his Zeal and Loyalty for Our Service, of his Affection and Concern for the Church of Scotland, and of his Qualifications for the Discharge of so great a Trust, wherein We hope the Prudence with which you will dispatch the Business before you, will be of great Assistance to him. And so We bid you heartily farewell. Given at Our Court at St. James's, the 23d Day of April, 1737, in the Tenth Year of Our Reign.

By His Majesty's Command,

HOLLIS-NEWCASTLE.

Then his Grace addressed the Assembly by a Speech, which was returned by one from the Moderator. Appointed the ordinary Committees, particularly one to form the Draught of an Answer to the King's Letter.

Friday spent in Prayer.

Saturday, The Draught of the Answer to the King's Letter was read; after which, some Disputes arising with Relation to some Expressions concerning the Grievance of Patronages; it was put to a Vote, Whether these Expressions should stand as Part of the Answer to the Royal Letter, or not, and carry'd they should stand.

## L O N D O N.

Last Saturday se'night a Tinker was committed to Newgate at Dublin, for coining Raps in imitation of the new Half-pence lately sent from his Majesty's Mint in the Tower, to that Kingdom.

The following Article is printed in several of the Dublin Papers.

The Hollanders have lately given a Specimen of their Skill in a new Coinage of Guineas and half Guineas; some of these have been produced here. They are made in Imitation of those coin'd for his late Majesty K. George I. with a beautiful Cross, not to be distinguished from that on the Reverse of the legal Money; but the Head, tho' the Name and Titles are exact, looks more like the Bust of Lewis IV. on a French Pistole. The Gold appears to be Sterling; but one of the half Guineas when weigh'd, wanted 4 Grains of the Weight of a 10 Shilling Piece; so that the Profits of this Coinage, supposing them all to be Sterling (which yet cannot be depended on) is near 19 per Cent. The common Methods of impairing English Gold by Wash-  
ing and Filing, were allowed to be Grievances of a high Nature, but this far exceeds them; for a half Guinea diminished by those Means has seldom been known so light by some Grains as the one above-mentioned. It is hoped the above Information will be acceptable to the Publick, and put every Man upon his Guard against Attempts of such pernicious Consequences to the Publick Credit of these King-  
doms.

There are Accounts from Ludlow, Bishop's Castle, and several other Places in Shropshire, that last Friday se'night in the Morning, while the Inhabitants were in their Beds, they felt an Earthquake, which continued some Minutes.

Last Tuesday Harbord Harbord, Esq; of Gunton, late Knight of the Shire for the County of Norfolk, was married to Mrs. Marcon, a Widow Lady, Relict of — Marcon, Esq; late of Norwich, and Daughter of Sir Benjamin Wrench, Kt. a Lady of excellent Accomplishments, and a great Fortune.

A beautiful Monument is erected in St. James's Church, at St. Edmund's Bury, to the Memory of Mary the late Wife of the Right Hon. the Lord Chief Baron Reynolds, one of the Daughters and Coheirresses of Thomas Smith, of Thrandelton in Suffolk, Esq;

Yesterday Evening John Conduit, Esq; Member of Parliament for Southampton, and Warden of the Mint at the Tower, was given over by his Physicians.

Last Saturday Morning Sir Cordel Firebrace, Bart. Knight of the Shire for Suffolk, set out for his Seat in that County; and we hear that he is shortly to be marry'd to a Widow Lady of great Merit, and a Fortune of 40000 l.

Ellerker Bradshaw, Esq; Member of Parliament for Beverly in Yorkshire, who has been dangerously ill, is now in a fair Way of Recovery.

Last Saturday Mr. Pultney, Son to General Pultney, was married to Brigadier Otway's Daughter, at his Country Seat near Hounslow.

Yesterday the Bishop of Oxford came in his Robes to St. James's, and having taken the usual Oaths, went and waited on his Majesty, and kissed his Hand.

Last Sunday the Bishop of Hereford was taken very ill, but is now in a fair Way to do well again.

Yesterday the Judges of the Court of Common Pleas committed a noted Attorney to the Fleet Prison, for defrauding one Ferguson of upwards of 500 l. The said Ferguson had been confined in Dr. Wright's Madhouse, and in Danger of his Life made his Escape.

The same Day, being the last Day of Term, the Rev. Mr. Creek, a Nonjuring Clergyman, Mr. Jelliman, Mr. How, and several others, appeared on their Recognizances at the Court of King's Bench, and were further continued.

The same Day the Judges of the Court of King's Bench gave Judgment against one Stephen Sutton, some Time since convicted at Northampton Assizes, for fiddling Sixpences, and putting them off for Half-Guineas; and also for defacing the Coin. The Court sentenced him to stand in the Pillory at Charing-Cross; to be Imprisoned for Six Months; and in regard to his Poverty, and his having been in Prison 15 Months, only fined him 6 s. 8 d.

We hear that the Prussian Officers lately confined for enlisting Men into Foreign Service, have obtain'd an Order for a Noli Prosequi.

On Sunday Night last, the noted Turpin robbed several Gentlemen in their Coaches and Chaises, at Holloway, and the Back Lanes at Islington, and took from them several Sums of Money. One of the Gentlemen signified to him, *That he had reigned a long Time*; Turpin reply'd, *'Tis no Matter for that, I am not afraid of being taken by you; therefore don't stand hesitating, but give me the Cole.*

Yesterday Richard Greenville, Esq; Member of Parliament for Buckingham, and Nephew to the Lord Viscount Cobham, took the Oaths in the Court of King's Bench, to qualify himself for his Employment under the Government.

The same Day William Chambers, John Forbes, and Griffith Deering, Esqs; took the Oaths in the Court of Common Pleas, to qualify themselves for their respective Employments under the Government.

Yesterday Richard Sampson, one of the Street-Robbers concerned in knocking down and attempting to rob a Clergyman, at the Corner of Gloucester-street, near Queen's Square, Bloomsbury, where he lost his Hat, was committed by Col. De Veil, to the Gatehouse, for further Examination, having committed several Burglaries and Street Robberies: Amongst which was one last Wednesday or Thursday, upon a Man in Wych-street, about 12 o'Clock at Night; from whom he and his Accomplices took Four Shillings and Five Pence Half Penny. Warrants are issued out against several Persons concerned in these Street-Robberies and several Burglaries.

**CONSUMPTIONS of all Sorts, ASTHMA's, and all Disorders of the Breast and Lungs,**

**Directly and infallibly cured by the Great CHYMICAL ELIXIR,**

**WHICH** has restored so many Thousands labouring under the deepest Consumptions and most deplorable Asthma's to perfect Health and Strength in a few Days Time, after all other the most celebrated Methods and Medicines had been try'd in vain.

It at once strikes at, and absolutely eradicates the first Principle or Cause of Consumptions, whether of the Lungs or of any other Kind, as also of Asthma's, or Shortness of Breath, reduces the vicious Ferment of the Blood and Juices, corrects the acrid Salts which erode the Lungs, frees them from all obstructing Viscosities, and does more real Good in one Day than any other Medicine whatever can in ten.

It assuredly retrieves the Patient, tho' reduc'd to a meer Skeleton; and immediately cures the most tedious wasting and almost suffocating Coughs, Hoarseness, Wheezing, Shortness of Breath, Difficulty of Breathing, Pain, or Weight in the Breast, Spitting of Blood, Soreness of the Stomach, Throat, or Windpipe: Also Catarrhs, or Defluxions of sharp Rheum, and all Pricafical and Arthmatick Effects, Hectick Fevers, melting Night Sweats, and Diarrhoea's, or Loosenesses, in a pleasant and most agreeable Manner.

It is balsamick, healing and strengthening beyond Comparison, restores in all inward Wastings, Weakness, and Decay of Constitution whatever, perfectly cures Ulcers in the Lungs or in any other internal Part, causes free and easy Respiration or long Breathing, and speedily and in allibly cures ASTHMA's, and all Sorts of CONSUMPTIONS, be they ever so bad, without the least Disorder, Trouble or Confinement, and is indeed the only true Remedy that can be surely depended upon for the entire Cure of those Maladies.

Nor can the whole *Materia Medica* afford a quicker or more certain Cure for common Coughs and Colds; but the great Character of this most noble Chymical ELIXIR has so justly gain'd, for the direct and infallible Cure of CONSUMPTIONS and ASTHMA's, &c. has occasioned many Attempts to counterfeit it; be careful therefore to have the Right, which is to be had only at Mr. RADFORD's Toyshop, at the Rose and Crown against St. Clement's Church-yard in the Strand, at 3 s. 6 d. a Bottle with Directions, and at no other Place in England.

**WHEREAS** it has been falsely Reported, that my Father, Mr. JOHN MOORE, late

Apothecary at the Pestle and Mortar in Laurence Pountney's Lane, at the first great Gates on the Left Hand from Cannon-street, has died, not leaving any Person capable of carrying on the Business. This is to inform the Publick, that I, MAN MOORE, Daughter of the late Mr. John Moore, having been instructed by him for several Years in the Preparation and Application of his Worm Medicines, Anti-Scorbuticks, and other Medicines, am ready to dispose of them to all who shall have occasion for them, at his late Dwelling House. Likewise the said Mr. John Moore's Worm-Medicines are sold at Mrs. Reader's, at the Nine sugar Loaves, a Chandler's Shop in Hungerford Market, sealed with his Coat of Arms, being a Cross, with the Words, *John Moore's Worm Foundry, &c.* inscribed round it; and if any are sold at any Place, except at his own House, without that Seal and Inscription, they are Counterfeits.

Also there is to be sold at the late Mr. Moore's Dwelling House, a Collection of Tame Pigeons, among which are fine Carriers, very large Runts, Turbets, Pouters, and several other Sorts of curious Pigeons.

**An immediate and never-failing CURE for Deafness, Thickens of Hearing, Noise or Pain in the Ears, &c.**

**BY** a noble Chymical Preparation, the most excellent Medicine for this Purpose that ever was known, which so far exceeds any thing ever yet published, or made Use of, that there is no Comparison; its Virtues are beyond Expression, and cannot be truly known but by Experience: Words come short of its just Praise.

It is a certain, and, as it were, an instant Cure for Deafness, Thickens of Hearing, Noise or Pain in the Ears, from what Cause soever, or of ever so long standing, having cured vast Numbers of Persons of both Sexes, and all Ages, that have been in a manner totally deaf, after all other Means and Medicines external and internal, by Advice, and also by Publication, have failed, with the greatest Ease and Safety, and to their utmost Satisfaction and Wonder; for,

In a peculiar Manner it strengthens, softens, and loosens the Drum of the Ear, which by being cried, or thriv'd, is often the first, and chief Cause of every Complaint of want of Hearing, or of Noise or Pain in the Ears, &c. To remedy all which, this noble Medicine is a true Specifick, that never fails perfectly to cure all possibly curable Cases, after all Means and Medicine have utterly failed; which is more than can be said of any other Thing in the whole World besides itself: Any Cold in the Head, or any Hurt by congealed Matter in the Ears, it instantly cures.

It is sold for 3 s. 6 d. each Bottle, by the Author's special Appointment, at Mr. Richards's Tinshop, the Sign of the Black Horse and Star, in Fleet-street, near Fleet-Bridge; and no where else in England.

**The incomparable POWDER for Cleaning the TEETH,**

Has withstood, by its most excellent and known Virtues, the Attempts of many repeated Counterfeits; some imitating it by the Name of Powder, others under several other Names; therefore pray take Notice, that the only true effectual, and original Powder, is sold no where else, but as mentioned below: It is sent for in large Quantities to the Plantations beyond the Seas, to whom good Allowance is given; and is as effectual in the East or West Indies as at London.

**WHICH** has given so great Satisfaction to most of the Nobility and Gentry in England, for above 30 Years that it hath been published, and vast Quantities of the same still continue to be sold.

It is sold only at Mrs. King's Toyshop, the Blue-coat-Key, against the Cross-Keys Tavern in Cornhill; and at Mrs. Markham's Toyshop, the Seven Stars under St. Dunstan's Church in Fleet-street, and no where else, at 1 s. each Box.

At once using it makes the Teeth as white as Ivory, tho' never so black or yellow, and effectually preserves them from rotting or decaying, continuing them sound to exceeding old Age. It wonderfully cures the Scurvey in the Gums, prevents Rheum or Defluxion, kills the Worms at the Roots of the Teeth, and thereby hinders the Tooth-ach. It admirably fastens loose Teeth, being a neat cleanly Medicine, of a pleasant and grateful Scent, and in Virtue far exceeds any Thing ever yet found out for those Purposes.

All the Nobility, Gentry, &c. who send to Mrs. Markham for the Powder for Teeth, are desired to give strict Orders not to mistake the Shop, (MARKHAM at length is under the Seven Stars) because most of the Toyemen in her Neighbourhood, seeing Multitudes go to her Shop for it, have trump'd up Counterfeits and sell their Stuff in Imitation of our known and approved Powder, in Prejudice to the Publick, &c.

The LIP-SALVE.

Which is so much esteemed, and of so many Years large Experience, and whose Virtues vastly exceed any Counterfeit, is sold at the same Places at 1 s. each Box.

For in two or three Hours time it heals them, tho' never so rough or chapt; prevents the Skin from peeling, and makes them delicately soft and smooth, giving them a becoming ruddy Colour; the Fragrancy of its Odour also renders the Breath fine and sweet, and it may be eaten for its Safety.
